January 14, 2015

Dear Ms McNaughton,

This is just a small note to say how thankful I was for your taking the time to describe Opening Doors to Success Inc. during our face to face interview Monday, January 12, 2015. Three of your previous participants raved about Opening Doors and their personal success attributed to your programs. I just had to see for myself.

Inner-City Women's Ministries International Inc. has worked with incarcerated women, who many times have dual diagnoses (addiction and mental health issues). This is the first program where three persons have individually attributed their success to one particular agency. They stated your programs (Attitude for Success—Ready Set Work; Let's Talk Healthy Community; and Joy of Work/Make Work Play which includes tools for better communication between friends, co-workers and employers) have been the best thing that has ever happened to them in the life skills/job-training field.

We would like to support your organization by spreading the word that you are out there, and by sending you more clients. **We feel a program such as Opening Doors to Success Inc. should be available to every person living in cities and rural Manitoba.** We state this from our experience of walking alongside marginalized people in their journey to successful living for the past ten years. We are so happy you are in South Eastman and pray that you will grow.

You and your staff are an inspiration to us. Best regards to all at Opening Doors to Success Inc..

Yours very truly,

Shon Louise McLaren MA
Executive Director
